March 25, 2014

United States House of Representatives  
Washington, DC 20510

Dear Representative:

As representatives of tens of thousands of small and seasonal employers throughout the country, the undersigned organizations urge you to continue to protect and support the H-2B temporary worker program by cosponsoring H.R. 4238. This legislation is needed to address burdensome new H-2B regulations, legal uncertainties and an arbitrary cap on the number of H-2B workers admitted to the U.S. each fiscal year.

The H-2B program is essential to employers who cannot find local temporary workers to fill jobs during their peak seasons. In addition, the program provides an opportunity for those employers to operate at a greater capacity and retain their full-time workers. Small and seasonal businesses rely on the H-2B program to fill temporary vacancies in seafood harvesting and processing, horse training, hospitality and amusement parks, forestry, landscaping, golf courses, circuses, carnivals, food concessionaires, swimming pool maintenance, and stone quarries.

Employers turn to the H-2B program as a last resort after an extensive recruitment effort to secure local workers. Participating in the program is extremely time-consuming and expensive. It also requires employers to gain approval from four government agencies, yet seasonal employers still utilize it because they are committed to doing everything they can to maintain a legal workforce.

Unfortunately, many employers will not be able to use the H-2B program this year because of the program's arbitrary cap of 66,000 (33,000 for the first half of the fiscal year and 33,000 for the second half of the year). The first half cap has already been reached and the second half cap could be reached soon, leaving seasonal businesses and their American workers without needed supplemental seasonal labor. H.R. 4238 would re-instate the H-2B returning worker exemption that was in place from 2005 through 2007. This expired provision of law exempted from the cap H-2B workers who have complied with past visa requirements and worked in the program during one of the preceding three years.

The legislation would also eliminate legal uncertainties stemming from burdensome H-2B wage regulations and subsequent litigation by clarifying the "prevailing wage" methodology that should be used for setting H-2B wages to ensure that wages are fair for workers and employers and reflective of economic realities.

In addition, the bill would streamline the complicated and costly H-2B recruitment process and permit “staggered entry” to allow employers to bring workers in on multiple dates as they ramp-up for their busy seasons.

Finally, the legislation would provide an additional benefit for H-2B workers by requiring employers reimburse H-2B workers for their transportation and subsistence costs from the U.S. consulate or border crossing to the worksite or from the previous worksite to the new worksite.

We urge you to cosponsor H.R. 4238. A well administered H-2B program is essential for small and seasonal businesses that are committed to maintaining a legal workforce. Thank you very much for your consideration.

Sincerely,
